

CIDER UNDER BAN IN STATE OF KENTUCKY

Thirty Four States Have State Prohibition Enforcement Acts.

LOUISVILLE, Ky., April 21.—Farmers in Kentucky who have been accustomed to quenching their thirst with hard cider may be classed as "moonshiners" under the McLehman law which goes into effect on July 1. Under the state-wide dry amendment, adopted by the people last Fall, any person having a beverage containing more than one-half of one per cent alcohol, including cider or home-made wine, on their premises, may be handled into court to show whether they manufactured it with or without a permit.

Kentucky in thus assuming "concurrent jurisdiction" with the government of the United States in enforcing prohibition puts more teeth into the Volstead Enforcement Act and makes every peace officer in the state responsible for keeping the commonwealth "bone dry."

Thirty-four other states and the District of Columbia have state law enforcement measures as follows: Alabama, Arkansas, Colorado, Delaware, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Maine, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, South Carolina, South Dakota, Tennessee, Texas, Virginia, Washington, West Virginia and Wyoming. Ohio has not adopted a complete enforcement code, three codes having been passed by the legislature and held up by the popular referendum.

Eleven states which so far have not passed law enforcement codes are: Massachusetts, Rhode Island, Connecticut, Vermont, New York, New Jersey, Maryland, Pennsylvania, Louisiana and Wisconsin. Three of the 11, Rhode Island, New Jersey and Wisconsin, have adopted beer bills. The Wisconsin legislature, in enacting a two and one-half per cent law provided that if the United States Supreme Court sustains the Volstead Act, the statute shall not go into effect. Rhode Island will license places selling beverages containing not more than four per cent of alcohol by weight on the ground that it is non-intoxicating. New Jersey in legalizing the manufacture, sale and transportation of three and one-half per cent beer awaits the formal declaration of peace and the end of war prohibition.

Maryland wet legislators proposed a three and one-half per cent beer bill which was passed by the House but defeated in the Senate. A three and one-half per cent bill is now pending in the Massachusetts and New York legislatures. Delaware is considering an amendment to the state prohibition code providing for the sale of liquor for "medicinal purposes" in harmony with the federal ground that it nullifies much of the state enforcement law.

Eighty per cent of the machinery imported into Japan in 1918 came from the United States, 16 per cent from Great Britain and 4 per cent from other sources.

R. R. Wage Settlement May be Delayed

WASHINGTON, April 21.—The possibility of several months' delay in the settlement of the wage demands of the two million railroad workers developed today during discussions between representatives of the roads and the Brotherhood of Railway Trainmen. The latter body before the Railroad Labor board when hearings on the demands were resumed.

E. T. Lither, chairman of the wage commission of the association of railroad executives, said considerable time would be required for the roads to gather necessary data to place before the board and that answers to a questionnaire sent out by his association could not be obtained within three months. J. H. Shegherd, president of the conductors' brotherhood, declared that since the dispute has been pending 16 months the roads had had time in which to gather all necessary information.

Declaring that the roads could de-

lay settlement of the dispute by 12 months, W. A. Doak, vice president of the Brotherhood of Railway Trainmen, said every month's delay meant the saving of millions of dollars by the roads. He warned, however, that further delay in settling the wage ques-

tion would add to unrest among the railroad workers.

John Cavender was in the city a short time yesterday en route from other points to Chicago. He visited his sisters, Mrs. W. H. Conaway and Miss Florence Cavender while here.

Plans have just been completed to erect in Paris the greatest trade building in the world, to be known as the Marche du Monde (World's Market.)

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the harmful effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects. Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c.

Engineers Agree

This is the machine mechanical engineers select on account of its mechanical superiority.

The A. B. C. really is a better machine mechanically. It requires practically no attention from the operator. It has fewer parts than any other machine. It is most nearly trouble proof. And it does better work.

It is not necessary to take our word about these claims for the A. B. C. Try the machine in your own home. Without the slightest obligation, we will be pleased to send an A. B. C. to your home for demonstration on your own clothes. After you agree that the A. B. C. is all that we claim for it, you may purchase on very liberal terms. Call us today.
